

12F MTP Cassette Module Type A

DESCRIPTION

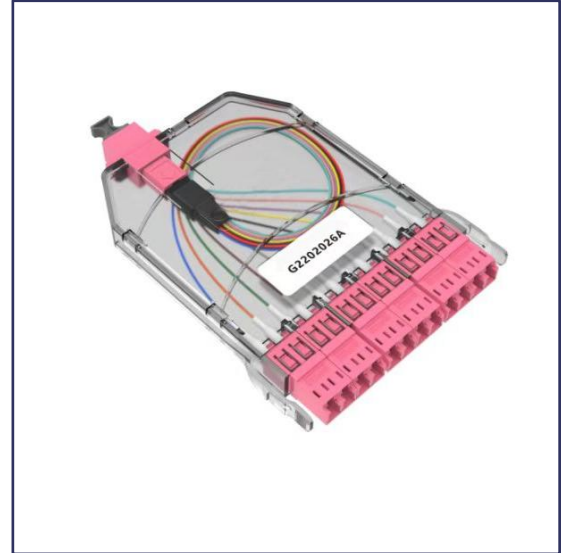

MTP fiber cassette modules offer 12-fiber MTP® adapter on the rear of the units routed to 6 duplex LC adapters on the front patch field, which interconnect with high density fiber cable assemblies for multiple applications.

FEATURES

- Good technical performance.
- Low insertion loss and back reflection loss
- Good changeability
- Good Durability
- High temperature stability

APPLICATIONS

- FTTH, LAN, PON & Optical CATV
- Optical fiber communication system
- Industry and military application

SPECIFICATIONS

Parameter	Value
Fiber count	12 F
Fiber mode	G657A2
Dimension (mm)	101×152.2×33
Front Connector Type	LC duplex (APC)
Rear Connector Type	MTP(APC)
Gender	Male
Polarity	Type A
Insertion loss	≤0.7 dB
