

High Density 3U MTP®/MPO Patch Panel

DESCRIPTION

The High Density 3U MTP®/MPO patch panel is specially designed to filite high density cabling systems in data centers and telecommunication environments. This rack-mountable MTP®/MPO patch panel can be loaded to provide a maximum of 288 fibers, is made of 19" cold-roll steel box, with plastic splice tray inside, suitable for pigtail, ribbon and bunch cable distribution.

FEATURES

- 19" Standard Size, Light Weight and Robust Structure
- Sliding-type with Ergonomic design, convenient installation and maintenance
- Radius protected patch cord routing, easy for the cable management and improved density
- Improved design to ensure fiber optic cable bend radius not less than 40mm
- Optional High Performance MPO Connectors Available

APPLICATIONS

- Data center
- Telecommunication Networks
- CATV Networks
- Data communications Networks

SPECIFICATIONS

Dimension(mm)	MPO	Max. Capacity	Material
435*225*133	4 Cassettes / U	2 8 8 FO	Cold rolled steel 12pcs MPO cassette
