

Anchoring Clamp for ADSS Drop Cable 4-7mm

DESCRIPTION

ADSS tension clamp called FTTH cable drop clamp is designed for dead-ending of 4-7mm diameter round drop cables deployed on outdoor FTTH line constructions.

FEATURES

- Easy and quick installation
- The small width of the clamp enables near multiple anchoring
- Self-adjustable wedge
- Fast installation, no require other tools
- UV resistant thermoplastic guarantee long period usage

APPLICATIONS

- Access network
- FTTH line constructions

SPECIFICATIONS

Parameter	Value
Capacity	4-7mm
Recommended Span Length	50-70m
Strength load	≤160daN
Dimension	L 245 mm, W 27 mm, H 32 mm
Material	UV resistant thermoplastic

ORDERING INFORMATION

Description	Reference
Anchoring clamp for ADSS drop cable, 4-7mm	80N000000026
