

1U HD Fiber Enclosure with Cassettes

DESCRIPTION

1U Rack Mount HD Fiber Enclosure supports maximum 144 fibers. It is mainly installed in server cabinet with capability of housing 6pcs high-density easy-plug MTP / MPO to LC fiber panels or cassettes. This solution contributes to greater network availability that especially ideal for connection and cable management of Data Center and other optical fiber backbones. It can be pre-terminated with MPO/MTP switching modules or MPO/MTP adapter front panels to achieve interconnect and cross-connect of backbone cables and active devices.

FEATURES

- Choice of fiber types
- Standard EIA 19" rack rails
- Clear ID marked and Easy to Locate
- Improve space to make sure bending rate of fiber

APPLICATIONS

- High density fiber cabling system
- Fast cabling system
- Backbone network
- High integration equipment and device

SPECIFICATIONS

Parameter	Value
Size	485*470*44mm
Weight (with cassette)	4.0 kg
Capacity	LC 144 cores/SC 72 cores
Operation Temperature	-25°C ~ +70°C
Patch Cord Type	MPO/MTP-LC Patch cord
