

OM3 Quad Multimode LC Adapter Inner Shutter

DESCRIPTION

Fiber optic adapters - also known as Fiber couplers, Fiber Adapters are designed to connect two fiber optic cables together. It provides a great solution to meet the growing demand for the small form factor, high-density fiber optic connectivity.

Built-in Adapter is designed to cover the entire coupler hole. These unique adapters virtually eliminate eye exposure to lasers and provide maximum protection from dust and other contaminants. The swing shutter automatically opens as the LC connector is inserted, and closes as it is extracted. Our bulkhead adapters accept a fiber connector on one side and have threads that can be used to mount the adapter into an OEM or custom fiber system.

FEATURES

- Compact style design
- Patented spring ensure stable fixed in panel
- Real one piece structure design
- Various color available
- IEC 61754-20 complaint
- RoHS/REACH and UL94-V0 inflammability complaint

APPLICATIONS

- Telecom network
- FTTX
- Optical communication equipment
- Local Area Networks(LANs)
- Data processing networks
- Data Centers

SPECIFICATIONS

Items	SM		MM
	UPC	APC	PC
Insertion Loss	≤0.2dB	≤0.2dB	≤0.2dB
Repeatability	≤0.2dB		
Durability	500 times, ≤0.2dB		
Operating Temperature	-40°C~+ 85°C		
Storage Temperature	-40°C~+ 85°C
