

24/48 Fibers Outdoor Wall Mountable Fiber Terminal Box

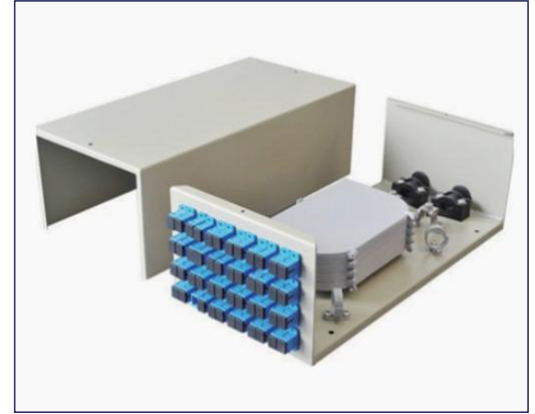

DESCRIPTION

24/48 Wall Mount Fiber Patch Panel Enclose is designed for high density, our Wall Mount Fiber Enclosure saves space while providing ample room for cable routing. Constructed from 16 gauge steel for performance and durability.

Holds 2 LGX adapter panels up to 48 fibers (48 LC, 24 SC or ST). Suitable box for many indoor installations, easy fix and reopen to have access to the pigtails, the cable is also easy to block and give a full secure equipment.

FEATURES

- Easy Release Latches - Hinged front and rear doors open easily in a crowded rack
- Non-captive top and bottom entries - Protects trunkcables
- Rear SC cut-outs - convert into wall mount splitter, SC simplex, LC duplex, or MTP® cassette
- Ships in durable cardboard box with anti-static EPE pearl cotton foam packaging

APPLICATIONS

- FTTO
- POL
- LAN/WAN
- CATV & Security
