

## Anchoring clamp for ADSS drop cable-Roll

### DESCRIPTION

Optical drop cable clamp is a type of wire clamp, which is widely used to support telephone drop wire at span clamps, drive hooks and various drop attachments. It is designed to round FTTH drop cable in FTTH or fiber optic to home construction. The unique design allows the anchoring of the cable on the end support without any radial pressure on the cable and fiber and provides additional protection for the FTTH cable.

### FEATURES

- Drop Wire Clamp for managing round drop cable diameter from 2-6mm
- Dead-ending of round drop cable on poles and buildings.
- Suspension of drop cable at intermediate poles by using 2 drop clamps.
- Effective and time-saving for cabling.

### APPLICATIONS

- Cable connecting fittings
- ADSS cable

### SPECIFICATIONS

Parameter	Value
Cable diameter	2mm, 4-6mm
Color	Black
Material	Plastic
