

Horizontal Splice Closure Φ 15mm

DESCRIPTION

Our horizontal splice closure is designed for straight-through line/branching applications, ensuring protection from the environment and is suitable for underground deployment. Ideal for aerial, underground, wall mounting, duct mounting and manhole mounting.

FEATURES

- 2 inlet, 2 outlet splice closure, cable diameter Φ 15mm
- Strong weather resistance, can effectively resist high and low temperature and chemical corrosion tests
- Max. capacity: 12 fibers(single fiber)
- Installation mode: Suitable for Aerial, Pipe line, Manhole, Underground mounting

APPLICATIONS

- FTTX
- TELECOMMUNICATION
- LAN/WAN

SPECIFICATIONS

Parameter	Value
Style	In-line/ Horizontal
Dimensions	315(L) \times 140(W) \times 60(H) mm
Sealing Type	Mechanical Seal
Cable ports	4
Cable diameter	Φ 15mm*4
Fiber Splice Capacity	12(bundle)
Tray Capacity	12(bundle)
Tray Count	1
Application	Aerial/ Wall/Manhole/Direct burial mounting
