

Dome Fiber Optic Splice Closure 144F/192F Replaceable Base

DESCRIPTION

ABL-DCH002 Dome Closure is mainly used for optical fiber connection and protection, it is suitable for connecting overhead, pipe and buried straight and branch. The box body and base are sealed with hoops and rubber. The closure casing is made of high-quality engineering plastics, and has good explosion-proof performance against acid and alkali salt, anti-aging, as well as a smooth appearance and reliable mechanical structure. The mechanical structure is reliable and has the ability to withstand the wild environment and intensive climate changes and severe working environment. The splice trays (FOST) inside the closure are turnable like booklets, and have adequate curvature radius and space for winding optical fiber to ensure the curvature radius for optical winding 40 mm. Each cable and fiber can be operated individually. The product can be opened again and reused after installation. Replaceable base support 1 inlet 4 outlet/1 inlet 6 outlet/3 inlet 3 outlet/4 inlet 4 outlet.
