

# 19" 1U 12/24 Ports Sliding-out Patch Panel

## DESCRIPTION

SPP08-1U Economy Fiber Optic Patch Panels provides fiber optic and networking technicians with an affordable, compact solution for rackmount fiber applications. It can be pre-loaded with adapters or pre-loaded with pigtails and splice accessories for convenience. It is constructed of durable powder coated steel with removable front connector panel and cover for easy access to fiber optic cables. Self sealing rubber grommets accommodate multiple cable entrances for ease of installation, and cable management hardware is included.

## FEATURES

- SPCC with a thickness of 1.2mm
- The rear cable input port is designed to securely accommodate both M20 and M25 PG connectors
- The cable entrances are sealed with silicone ring to enhance flexibility
- Polished aesthetic, free of any imperfections or rough edges
- With removable front panel

## APPLICATIONS

- Enterprise network & Datacenter
- Indoor application
- Accepts Indoor and Outdoor Pre-terminated cables and conventional Splicing

## SPECIFICATIONS

| Item                         | Parameter                        |
|------------------------------|----------------------------------|
| Size(L*W*H)                  | 426*203*43.5mm                   |
| Optical Fiber Winding Radius | ≥40mm                            |
| Fiber Length Left in Tray    | ≥1.6m                            |
| Max Capacity                 | 24 (LC Duplex) ; 12 (SC Simplex) |
| Working Temperature          | -400°C~+600°C                    |
| Pressure Resistance          | 500N                             |
| Impact Resistance            | 750N                             |
